

Classic RFID Upgrade Kit Electronic Lock

Go Contact-less on the VingCard Classic door locks in three easy steps.

The Classic RFID upgrade kit offers the latest Radio Frequency identification (RFID) technology and the quickest path to go contactless if you currently have the standard Classic VingCard electronic locks installed. RFID technology is the solution to de-magnetization and recoding of keycards.

Classic RFID fully supports ASSA ABLOY Mobile Access solutions and is gives properties and guests the operational benefits of using mobile phones as room keys instead of physical cards.

FEATURES OF CLASSIC RFID

- : Standalone electronic lock with RFID technology.
- : Supports Mobile Access.
- : Fire-listed for use on fire doors. (UL, EN, BS).
