

# RFID Exit Device

By installing a VingCard Exit Device on your emergency exit, you maintain full access control from the outside as well as an easy and safe escape in case of an emergency. The emergency exit can be opened simply by pushing the push bar.

The Exit Device is suitable for wooden-, metal- and glass doors. It is supplied in a RIM version for horizontal installation with latch on the side of the door and in a ROD version for vertical installation with latch on top and bottom of the door.
