door opening solutions

## SPECIFICATIONS

### Elsafe Service Tools

A service tablet or a laptop is used with an interface cable and a unique service code. The service tool is also utilizing a software called SafeLink for Windows for synchronizing programming between the service tools and safes. For instance, to securely override, uploading programs, change settings or transfer data to the electronic safes.

### Power Outlets

Optional internal power outlet in different types (EU, UK, US or Universal with USB).

### PinKey Plus

PinKey is a compact electronic PIN code protected key to securely override and service Elsafe safes. This service tool must be combined with a USB docking cable and the Admin software to commission, service open a safe and print out events.
